About “Shiva Quartz”

SHIVA QUARTZ is a quartz processing and manufacturing company, specializing in the production of high-quality quartz grains, quartz grits, and quartz powder for industrial applications. Established in 2021, the company operates its manufacturing facility at Gidani, Mauzamabad, on the Jaipur–Ajmer Highway (NH-48). Strategically located in Rajasthan, Shiva Quartz is among India’s leading manufacturers of high-quality quartz grains and powder.

About “Shiva Quartz”

SHIVA MINERALS (SHIVA QUARTZ), is a partnership firm & one of the largest manufacturer- Rajasthan, India- in the category of best quality Quartz Grits & Powder. The company started its operations in 2021 and since then continuously growing rapidly and achieved good Brand Name in not only India but also in all over Global quartz slab manufacturers.

Owner's Profile

Mr. Abhishek Shah, Managing Partner at Shiva Quartz, is rooted in years of entrepreneurial experience and a strong understanding of business operations.

His business journey began with an owned **Indian Oil petrol pump (2003)**, located in Govindgarh, Jaipur. Where he gained valuable experience in managing day-to-day operations, customer relationships, workforce management, and maintaining high standards of service and reliability.

Building on this experience, he further expanded his business ventures with an **(ACE dealership) "SHREE YOGESH MOTORS" (2011)**, located in Govindgarh, Jaipur. The dealership provided him with deeper exposure to the industrial and infrastructure sectors, while strengthening his understanding of machinery, equipment, customers, and market requirements.

With years of experience across different business sectors, **Mr. Abhishek Shah** developed a vision to establish a manufacturing-oriented enterprise rather than limiting his operations to dealership and distribution. This vision led to his entry into the quartz industry and the establishment of **Shiva Quartz (2021)** in Jaipur, Rajasthan.

Today, **Shiva Quartz** operates as a dedicated quartz manufacturing unit, specializing in the production of premium-quality quartz grains, grits, and powder. The manufacturing facility has been developed with a focus on modern processing, precise grading, product consistency, and reliable quality. The company primarily serves engineered quartz surface manufacturers, while also catering to other industries requiring quality quartz raw materials.

Promoter's Profile

My journey as an entrepreneur has been shaped by years of experience, continuous learning, and the belief that every business should be built on trust, quality, and long-term relationships. We focus to build a company known for consistent quality, dependable service, responsible business practices, and lasting customer relationships.

— **Abhishek Shah**

(Managing Partner)

To establish **Shiva Quartz** as a trusted and leading name in the global quartz industry by delivering premium-quality quartz grains and powder, driven by innovation, consistency, and excellence.

Our vision is to continuously strengthen our manufacturing capabilities, expand our presence across domestic and international markets, and build long-term partnerships through reliable quality and dependable service.

Our Mission

At **Shiva Quartz**, our mission extends beyond manufacturing quartz—it is about creating consistent value at every stage of the process. We strive to combine modern manufacturing technology with disciplined quality control to deliver quartz grains, grits, and powder that meet the demanding requirements of our customers. By focusing on continuous improvement, responsible operations, timely delivery, and customer-centric solutions, we aim to build strong, lasting partnerships and establish Shiva Quartz as a dependable name in the domestic and global quartz industry.
